From H.M's Desk

**“You can teach a student a lesson for a day but if you can teach him to learn by creating curiosity he will continue the learning process as long as he lives”**

The wish to learn can be developed in a child by involving aim in different co curricular activities. CMP activities not only help in exposure of the talent of primary students but also nurture the spirit of healthy competition, leadership, fraternity & co-operation among them & thus help in their physical, mental & social development. This News Letter contains some activities that were conducted during April to July 2019 in the Vidyalaya in Primary section. I thank vidyalaya Principal for his guidance, children & colleagues for their contribution in giving final shape to this News Letter.
